## GYMNASTICS CLUB

### **Raans: Jewellery and Clothing Policy**

The Code of Dress for gymnastics activities is designed to safeguard the participants and coaches. The following points should be adhered to during training and events:  
Ensure that the gymnasts and coaches wear appropriate clothing, which does not impede the freedom of movement required by the activity and is not too loose as to constitute a hazard.

The wearing of clothing with buckles or clasps are dangerous and are prohibited.

Raised adornments on gymnastics clothing are dangerous and are prohibited.

Long hair may become a hazard and it should be tied back to avoid accidents.

Participants should work in bare feet or gymnastics slippers.

The wearing of socks without gymnastics footwear on polished or slippery surfaces is not permitted.

When participating on a trampoline, ensure that socks or suitable gymnastics footwear (not training shoes) are worn.

Long fingernails present a risk to the gymnast and coach. The coach is responsible for ensuring the length of fingernails is compatible with the activity.

Coaches and gymnasts should be aware of the risks associated with wearing spectacles and minimise the risks by wearing flexible frames, an elastic sports band or contact lenses to ensure safety.

#### Coaches at events:

- Coaches who are active in the event arena should dress smartly according to the following:
- Tracksuits, polo shirts or sweatshirts with long trousers, socks and training shoes or gym slippers.
- Where coaches are not physically active in the event arena, they should dress smartly according to the traditions of the particular discipline.
- Sensitivity to religious beliefs should be afforded with regard to the dress code but safety is paramount and any clothing that is considered by the coach to be a safety hazard should be changed or participation may be prohibited.

- Any concessions on dress must be within the bounds of reasonable safety. The element of risk should be explained to the coach / participant (parent or guardian) and every attempt to control the risk should be adopted.

A Clothing Modification Form must be submitted to the competition organiser with the entry. The request will receive full consideration and the club and entrant will be informed of the outcome within 10 working days of receipt of the request. In the event the request is declined, the entry fee will be refunded in full, providing that this form was submitted prior to the closing date.

### Body Piercing and Adornments

British Gymnastics believes that jewellery and adornments worn in body piercing are inappropriate for safe practice in gymnastics and trampolining.

A person participating with body adornments or jewellery MUST inform the coach and also remove the relevant items to reduce the risk of injury to the participant, the coach and others.

Whilst a coach is carrying out a spotting or gymnast supporting role; all jewellery must be removed. However if the coach is evaluating performance or giving instruction only; (by this we mean coaching whilst not in direct physical contact with the gymnast or gymnastic equipment), jewellery may be worn.

Exceptions to the above policy may be applicable in special circumstances which are outlined below:

- Jewellery that cannot be removed
  - It is acknowledged that in some circumstances, it may be impossible to remove a ring and/or dermal piercings. Should this be the case; the ring must be sufficiently covered with protective tape; and the piercings covered sufficiently in order to eliminate any risk.
- Newly pierced ears
  - Newly pierced stud earrings need to be covered with protective tape but must be removed as soon as possible (normally after six-weeks). For the avoidance of doubt; any jewellery which can be removed, must be removed.
- Religious and Medical jewellery
  - With regards to the wearing of jewellery; sensitivity to religious beliefs and medical requirements/reasons should be afforded, but safety is paramount and any jewellery that is considered by the coach to be a safety hazard, should be changed or participation may be prohibited. Any concessions on religious or medical jewellery must be within the bounds of reasonable safety. The element of risk should be explained to the coach/participant (parent or guardian) and every attempt to control the risk should be adopted.

Examples include the following:

- Diabetes Bracelet can be worn; but whilst participation is taking place a sweatband or similar must cover the item in order to eliminate any risk. The coach in charge must also be advised that a participant is wearing the bracelet for medical emergency reasons.
- Sikh Kara - Bracelet worn in the Sikh religion; can be worn, but whilst participation is taking place a sweatband or similar must cover the item; in order to eliminate any risk.

- Religious Necklaces – Examples are; the Crucifix necklace for Christians or the Mangalsutra necklace as a symbol of marriage for Hindu women. On safety grounds, no participant should be permitted to participate whilst wearing necklaces, be they religious or other.
- NB: if a sweatband is used to cover up an item of jewellery when doing vigorous activity, the sweatband should be taped in place to minimise the risk of the sweatband slipping and exposing the item of jewellery.

In all instances above; it is the responsibility of the coach in charge of the session to ensure a sufficient risk assessment has been carried out.

If the coach identifies a significant risk to the participant, coach or others, which cannot be controlled satisfactorily, then within the bounds of reasonable safety, the coach **MUST** prohibit participation. Legitimate health and safety concerns which contra-indicate participation, will supersede any other considerations, be they religious, medical or other.

Failure to conform will prohibit the individual's participation on the grounds of reasonable safety and may render the individual's insurance invalid should an accident result directly from noncompliance.
